Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed because the prior art of record does not teach or suggest the following limitations as recited in claim 1 (and/or similarly language in each of the other independence claims):

a tool/computer readable medium/method for translating event-based test data containing intentionally injected timing irregularities to cycle-based test data without timing irregularities, the tool/computer readable medium/method comprising: a normalization function that extracts said intentionally injected timing irregularities in said event-based test data and generates corresponding normalized event-based test data without said extracted timing irregularities; and a cyclization engine that cyclizes said normalized event-based test data to generate corresponding cycle-based test data without said timing irregularities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
